PROFILE

Detail-oriented Full-Stack Developer with 3+ years in PHP & Laravel. Expert in RESTful APIs, Blade, Livewire, payment integrations, and real-time features. Proficient in Java Spring Boot, MySQL, Docker, and Git. Committed to scalable architecture.

WORK EXPERIENCE

Mviyo Technologies   2023 - PRESENT
Software Developer

- Backend lead on RESTful API development using Laravel.
- Built full-stack features with Blade and Livewire components.
- Integrated real-time features (WebSockets) and payment gateways for ZimTickets.com.
- Ported an existing React app into Laravel for AagoTime.com.

Freelance   2021 - 2023
Web Development Tutor

- • Tutored 100+ students in web fundamentals, HTML, CSS, PHP , and JavaScript basics.
- Developed custom exercises and mini-projects to reinforce real-world skills.

Fructox Ltd   2020 - 2022
Web Developer

- Led in-house project development: full-stack websites and school management systems.
- Designed UI/UX mockups and finalized front-end designs. •
- Collaborated with cross-functional teams to gather requirements and deliver on time.

LIVE PROJECTS

- ZimTickets.com (Mviyo Technologies): Real-time ticketing system with WebSockets; integrated multiple payment gateway.
- Ore-Zone.com (Freelance): Laravel backend development: implemented PayPal payments and optimized endpoints.
- AagoTime.com (Mviyo Technologies): Ported a React front-end into a cohesive Laravel/Blade application.
